

*announcing... the
greatest improvement
over any
apparatus support
frames and clamps*

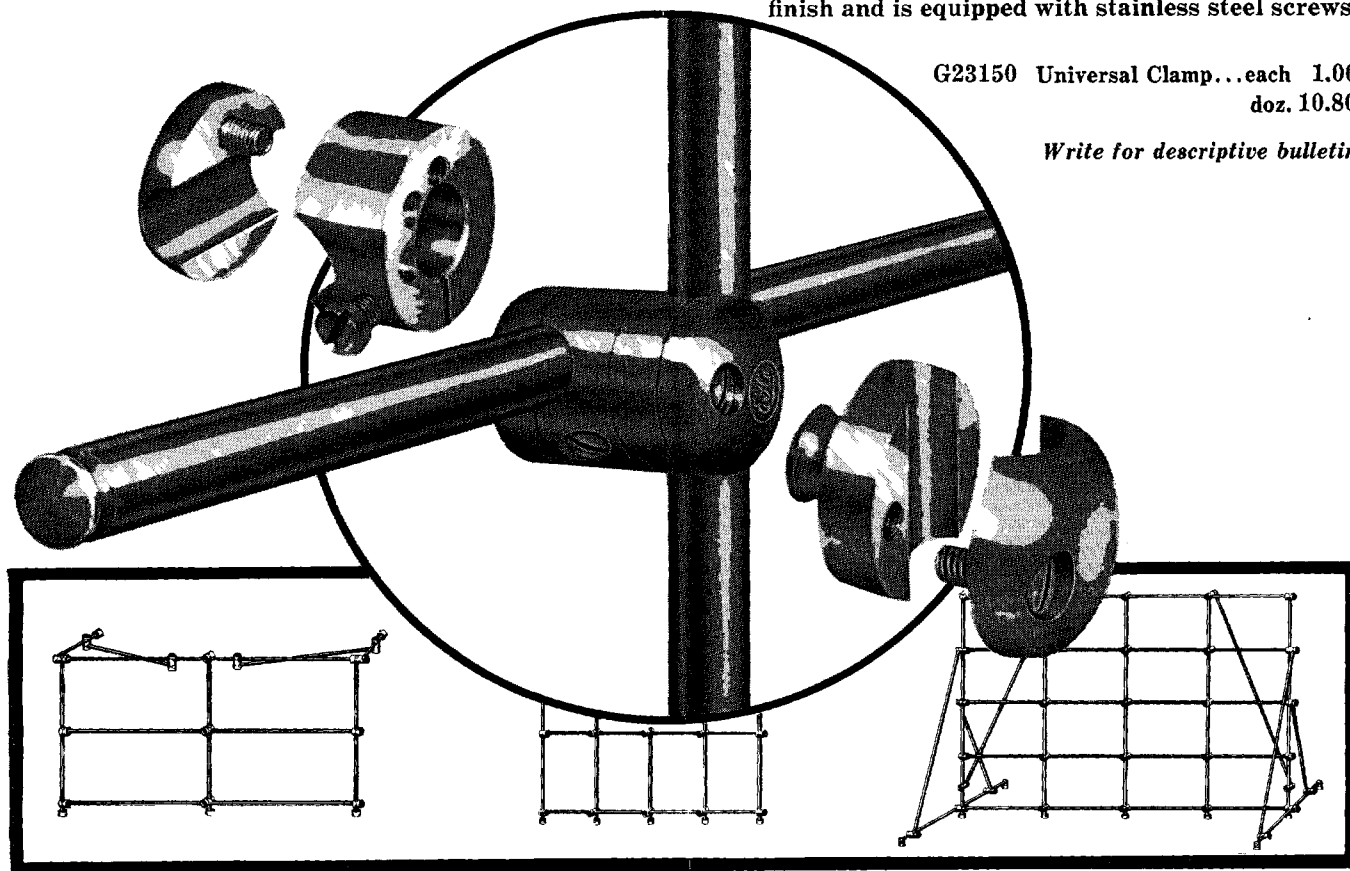

Here in the new Universal Clamp, developed by Manostat Corporation, is the most marked advancement in recent years of support frame design.

This new device provides you with complete versatility for the secure mounting of set-ups and pilot plant apparatus. Now you can obtain multiple rod attachment at any *two* dimensional angles... a swivel attachment provides any *three* dimensional angles. There is also a special attachment for wall and floor mounting and couplings.

The Universal Clamp is *machined* of aluminum alloy, *not cast*. It has a chemically resistant finish and is equipped with stainless steel screws.
